EXPERIENCE

AWS Cloud Club - JRU <i>Operations Officer</i>	Jan. 2026 – Present Mandaluyong City
– Streamline operational workflows for cloud computing workshops, improving event turnaround time by 20%. – Analyze community engagement data to identify trends and optimize resource allocation for future meetups. – Collaborate with technical leads to document SOPs for cloud-based project deployments and student hackathons.	
Starbucks <i>Barista (Operations Support)</i>	2024 – 2025 Metro Manila
– Managed high-volume inventory and POS transactions, ensuring 100% accuracy in daily financial reconciliation. – Identified bottlenecks in store service flow and implemented micro-adjustments to improve peak-hour efficiency.	
Student Organizations <i>Treasurer & Assistant Secretary</i>	2017 – 2019 High School
– Created digital financial trackers to monitor organizational budgets, reducing manual audit errors by 30%. – Generated monthly financial reports to support data-driven decisions for school-wide event funding.	

PROJECTS

Personal Finance & Budgeting Tracker <i>Excel Pivot Tables, Data Visualization</i>	2026
– Developed a practical tracking system using Excel to automatically categorize daily expenses and manage finances. – Built visual dashboards to monitor spending habits, identify cost-reduction opportunities, and forecast savings goals.	
Pinterest Campaign Performance Analyzer <i>Excel, Media Analytics</i>	2026
– Analyzed a simulated marketing dataset applying Pinterest Media Planning principles to evaluate ad spend efficiency. – Segmented audience demographics to identify high-converting trends, presenting actionable business recommendations.
